Our Visionaries

From the desk of
Chairman

**Our main goal at
SRC
is to strive relentlessly for providing
quality education and training in
challenging fields**

Dr. SC Kulshreshtha, M.Phil, Ph.D.

Dear Students,

Being the patron of SRC, it gives me immense pleasure in offering a warm welcome and extending an invitation to you to join the ever expanding family of SRC.

As an educationist, I am aware of the ground realities and challenges ahead of us and the complexities of the modern professional education in the fast changing scenario of the world. Therefore, we provide result oriented knowledge which should expand the horizons of students. Consequently, our endeavor is to enable our students to face any eventuality in their lives confidently. For this purpose, apart from the state-of-the-art facilities, we provide an environment conducive to high quality research work and development programmes with emphasis on the overall development of the personality of each student.

We are committed to keep our students well-educated about the latest trends in the education sector and corporate world. A number of experts, specialists, professionals and academicians of high repute from renewed institutions and the corporate world are invited for interaction with students so as to strengthen their conceptual foundations, sharpen their intellect, widen their knowledge and improve their communication skills.

My message would be incomplete without complimenting my faculty, staff and students who are working relentlessly in cohesion towards the vision of global quality standards. We, at SRC work and live as a family and hope that your stay with us will be more comfortable, fruitful and memorable.

I welcome you to the SRC family.

(S C Kulshreshtha)

From the desk of
Secretary

Sankalp Kulshreshtha, BE, MBA

Dear Students,

Since the globalization of the economy, the world is undergoing a sea change in the socio-economic fields. New challenges are emerging that need to be addressed at a fast pace. Therefore, professional education has gained the momentum to cater to the never-ending needs of the corporate sector.

Shri Ram College has made its presence felt by committing itself to be a part of this transforming environment by a holistic vision to serve the national and global corporates with its state-of-the-art facilities, highly committed and motivated faculty and visionary leadership.

Transformation is a never-ending process; so our aim is to always provide the latest quality education which, in case of a professional institute means a system that effectively and pragmatically combines theory and practice in order to ensure both perfection and relevance.

I wish you great success in life.

(Sankalp Kulshreshtha)

SRC

Institutions of opportunities
where you can shape your career

Our Vision

To provide a distinctive combination of academic excellence and professional relevance to enable the students to match international standards.

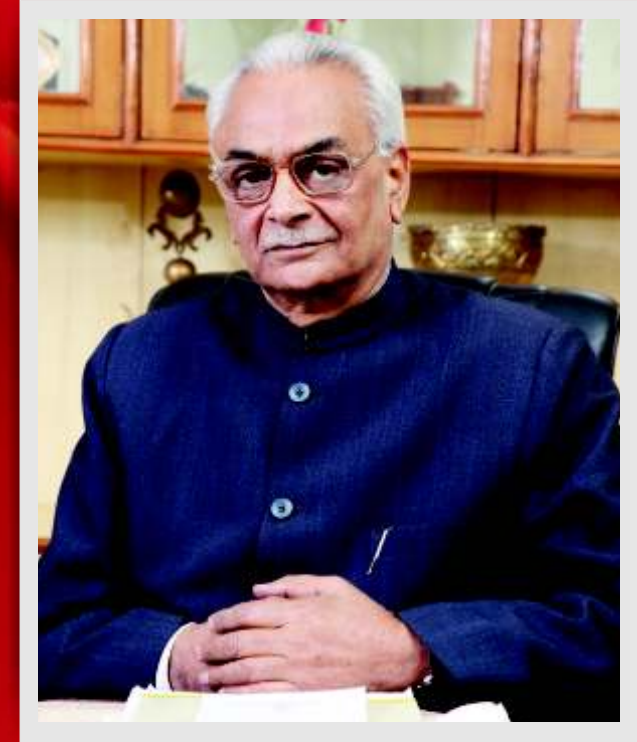

Our Objectives

- To bring SRC to the forefront in academics on an open world map.
- To build a conducive environment for promoting excellence in teaching and research.
- To create a better world by cultivating values in pupils' lives, both personally and professionally.

Our Mission

To provide value enriched high quality education at affordable fees and enhance the intrinsic abilities of our students by grooming their personalities so that they may fulfil the demands of today's dynamic world.

From the desk of
Executive Director

Dr. B K Tyagi MSc, PhD, FIETE

Dear Students,

Your search for one of the best professional colleges must end at Shri Ram Colleges where all efforts to transform you into a disciplined professional and dynamic personality are pursued relentlessly.

Meticulous planning by veteran educationists and leading corporate personalities has resulted in the emergence of the Shri Ram College as an undisputed leading institute in this region with an eye to recognition at a national level. A team of well qualified, experienced and dedicated faculty, sophisticated library facilities and state-of-the-art computer systems have enabled Shri Ram Group of Colleges to have an cutting edge in all respects.

The college campus are well laid-out, pollution free with aesthetically planned landscapes providing an environment conducive to professional studies. Special emphasis is laid on the standards of education and quality of life that is far beyond expectations. Further, our placement mechanism receives much of our attention by ensuring that each and every student of the Shri Ram College enters the professional world with flying colors.

We would like to invite aspiring candidates to be a part of the SRC family. Wishing you an excellent education and a bright career ahead of you.

(B K Tyagi)

former Member, Higher Education Service Commission
Govt. of Uttar Pradesh
former Principal DAV (PG) College, Muzaffarnagar

From the desk of Principal

Dr. R.S. Chauhan, MSc, Ph D (IIT)

Dear Students

All great ideas begin with a dream, followed by strong endeavor and commitment. Every young student in today's world dreams of becoming a professional. With thousands of institutes offering professional courses, one often finds oneself in a state of confusion deciding which college to opt for.

People look at a professional college from multiple perspectives and it appears that some colleges may be better in one attribute while the other colleges may be better in another. Whatever may be the individual goals and aspirations, the bottom line always is good education. We, at SRC are committed to provide quality professional education with a holistic development of the personalities of the students so as to develop them into intelligent, informed, socially responsible and all-round professionals.

We look forward to welcoming you to the SRC campus.

(Dr. R.S. Chauhan)

From the desk of Director-

Dr S P S Ahlawat

Dear Students

Men and women who have achieved greatness all have one thing in common, and that is, that they could make it, they could do it. This belief and tenacious determination is the key to their success. Your attitude, your manifestation, your belief are the important factor in your success. Therefore, you will have to change your belief that "Winners are born, not made to winners are made not born". SRC change your attitude in order to change your life, your vision and your future.

I believe there is no shortcut to hard work leading to success. I invite you to join us in our endeavor to build the nation and to meet the threats of technological and managerial manpower for highly competitive global market.

(Dr SPS Ahlawat)
Former VC, Vikram University, Ujjain (MP)
Former Director & VC, I.V.R.I. (Deemed University) Bareilly UP

What's different

@ SRC ?

- S** Strive to give education a new perspective
- R** Reservoir of knowledge
- C** Claim to produce world-class skilled and dedicated professionals

Spreading their wings

Spreading wings by exemplary educational practices the world over, learning and disseminating in order to create world class professionals empowered to lead the future as well as to create an institution where bright ideas are conceptualized, young brains are mentored and lives are transformed to conquer the future fore fronts.

We have plans to promote research and development in the fields of engineering, biosciences, computer sciences, management, legal education and applied arts. The land for expansion of infrastructural facilities has been acquired and construction of buildings of new blocks of SRC are under way, to ultimately make a world class university by integrating all its constituent colleges.

Infrastructure

Campus

Lush green, pollution free, beautiful campus which sprawl over a large area with a clean environment, fresh air and abundant natural light are the most fascinating elements that create an environment of free thought and creative spirit.

The architectural value of the SRC campuse is at a par with the best educational campuses in the region. The buildings of SRC are aesthetically designed, continually kept up-to-date, providing a layout that encourages interaction.

Lecture Halls

At SRC, air conditioned lecture halls are ergonomically designed to impart high quality education and to have a dynamic learning process. The well furnished lecture halls are suitably equipped with modern teaching aids such as overhead projectors, multimedia aids, LCD etc.

Lobby

Libraries

Vast collection of books, journals, periodicals and compact discs

More than **32,000** books
and over **226** journals
and magazines

Infrastructure@src

E-library and Information Services

The library is a vital resource and it serves as a nerve center for all the students' pursuits. SRC's computerized, impressive libraries comprise of a vast collection of carefully selected books, journals, periodicals, newspapers, audio cassettes and compact discs. The libraries have in stock, more than 60000 books and over 226 subscribed journals and magazines. The libraries also have the facility of DELNET, which enables students to work on a digital network of libraries belonging to premier institutions across the world.

SRC strives to continue to develop it with extensive holdings and contemporary methods of information access that support both faculty and methods of information. The libraries are housed in spacious halls comprising the reference hall and stocks of books with reading room space.

Computer Centre

First institute in the region to develop

Wi-Fi campuses

Infrastructure@src

State-of-the-art Computer Centre

The computer center plays a critical role as a learning centre both for the students and faculty. SRC is equipped with a state-of-the-art computing facility with more than 200 Core 2 Duo, Dual Core, Pentium IV machines and TFT monitors. SRC is committed to provide the best computer education. Keeping this in mind, it is the first institute in the city to establish Wi-Fi campuses connected with each other through wireless networking.

It also provides all relevant latest software packages to enable the students to work on data analysis, text processing, simulation, information management, computer aided designing, computer aided software engineering, data base management, web development, system analysis and software development, preparing each student for the professional job market. Round the clock internet facilities with connectivity through lease lines and RF link with 4 mbps speed gives students more opportunities to know the world and enhance their wisdom at a greater speed.

Laboratories

Laboratories are an integral and important constituent of any educational set-up. With this firm belief, SRC has invested generously in all the laboratories making them well lit, airy and aesthetically designed. The laboratories provide students an opportunity to work in modern settings with the latest equipment and instruments required for practical and research purposes.

Infrastructure@src

Sports Facility

Sports activities strengthen mental fitness just as much as they strengthen physical fitness and agility. Hence, we encourage our students to develop and exhibit their sports talent; not just excel in sports but also to evolve as fit and energetic professionals. Keeping in view the above objectives of the overall development of students, various sports and physical development activities are encouraged amongst students. To enable students to enjoy sports, the campuses are equipped with lush green playgrounds for hockey, football, handball, cricket along with separate courts for badminton, basketball, tennis, volleyball, kho-kho, kabaddi, athletics, (track and field), hall for table tennis, indoor games, gymnastics and yoga.

Facilities@src

Gymnasium

Along with mental fitness, emphasis is also laid on physical fitness. SRC is the only institute in the city to have a fully well equipped and modernized, 24-stations multi gymnasium, equipped with the latest equipments like joggers, vibration seats, incline-decline benches, aerobics mats, weight lifting sets etc. Thus, at SRGC, students have wide options to choose from a range of sports activities to ensure that they stay healthy enough to cope with stress.

Other Facilities

Cafeteria

Beautiful and spacious cafeterias are operative within the campuses, where students get a lot of relaxation and enjoy their free time. The cafeterias serve hygienically cooked meals, snacks and beverages at highly subsidized rates.

Conference Hall

Well equipped, air-conditioned conference hall with the latest audio video presentation techniques and interactive interface for group discussions, presentations and management development programs.

Hostel Accommodation

Hostel facilities are also provided separately for boys and girls with all modern amenities and recreation facilities for outstation students pursuing different courses at SRC.

Auditorium

A special state-of-the-art air conditioned auditorium has ultramodern facilities including latest audio video presentation facilities and interactive interface, with a large seating capacity, where seminars, annual functions and extra co-curricular activities are organized.

Transportation

College buses are available on all the routes in and around the city at highly subsidized rates on a monthly basis.

Lift Facilities

SRC provides lift facilities for the first time in Muzaffarnagar.

Facilities@src

SRC Campus Spirit

SRC nurtures its students with care to enable them to achieve not only academic excellence but also to develop students into complete, passionate and caring personalities. SRC is well known for its spirit of joy and hard work, its spirit of discipline and intellectual achievement which results in a spirit of success.

Academics@src

Management Development Programmes (MDP)

SRC offers Management Development Programme (MDP) focusing on the twin objectives of conceptual and skill development for the managers. MDPs are designed and executed to broaden the horizon of thinking and strengthening the skills of practicing managers. Programmes are offered in functional areas with multinational formats. Participants gain valuable insights on the subject through participation in classroom activities and interaction with other participants in the group.

Pedagogy

Pedagogy used is interactive with cutting edge techniques and innovation. This strengthens the skills and expertise of students. To meet the requirements of society, teaching at SRC is supplemented by practical case studies, audio-visual presentations, games, situational role-plays, presentations, assignments, tutorials etc. The delivery tools are formulated in a manner so as to enable the students to grasp the fundamentals quickly and acquire in-depth knowledge with the ease of learning. The course consist of real time applications, case studies and exercise practically used in various industries in this era of globalization.

Personality Development Programmes (PDP)

The biggest asset of any individual is his personality. SRC is committed to conduct Personality Development Programmes with the objective of developing the over all personality of the students so that the best within each student is brought out.

The personality development programmes at SRC take you on a journey of self-actualization. To make this programme successful, various activities are conducted like in-house seminars, extempore presentations, group discussions, debates, mock interviews, quizzes, role-plays, behavioral and leadership exercises etc on a regular basis under the guidance of experts.

English speaking classes are also conducted on a regular basis to make students fluent in English

Placement Cell

SRC has a very active and dedicated Placement Cell, which is operating under the supervision of the Training & Placement officer. It provides best career options to the students through an active interaction with extensive resources. Placement Cell works closely with the corporate world to provide employment opportunities to SRGC students. The Institute also provides additional skills enhancement support to its students. Besides maintaining active contacts with the industry SRC has close links with placement agencies to ensure good placement.

The aim of career services is to help students explore a wide variety of options available and provide help to plan and effectively implement the next career move. SRC takes full responsibility to arrange placements for all successful candidates.

Industrial Visits

The students of SRC frequently travel to various industries as a part of the industrial visit component of the programmes offered. These are excellent opportunities for students to gain exposure to a real life work environment and culture. SRC maintains a close interaction with industry professionals involving them in various activities through seminars, guest lectures, projects, consulting etc. Interaction with professionals of the industries help the students to get a glimpse of a corporate working environment.

Industrial Training

Industrial training is also provided to students according to the requirements of their course curriculum to gain exposure and explore practical learning.

Industry Academia Interface

In addition, SRC is well connected as it associates with various sectors of industries which enrich the programmes offered.

Some of these are :

Faculty Resources

One of the biggest strengths of any institute lies in its faculty members. SRC is overwhelmingly rich with its qualified faculty members who are experts in their fields. The faculty members have distinguished academic achievements in different related disciplines and are actively involved in teaching, training, research and consultancy. Our faculty is driven by the philosophy of knowing which resources are to be blended and in what proportion to mould each student's individual capacities to the optimum level. We are fully aware that high quality teaching plays a key role in inculcating a stance towards life long learning. We impress upon the faculty members to be friend, philosopher guide of the students, besides the student-teacher relationship.

"SRC is overwhelmingly rich with its qualified faculty who are experts in their fields"

Fashion Splash

Fashion Splash is a great platform for the Fashion Designing Students who can present their own designed apparels to show their creativity, styles, silhouettes etc.

Beyond The Curriculum

Cultural programs

Beyond The Curriculum

SRC's cultural society provides a forum for bringing out the hidden talents and creativity of students through various Cultural activities such as dance, drama, debates, seminars and other competitions. Culture at SRC is marked by a strong belief of unity in diversity. Our students come from different cultures and religions yet we share the same spirit. At the campus we celebrate all the festivals like Holi, Diwali, Lohri, Eid, Christmas etc.

Sports

SRC produce more than 50 National/University players every year

Beyond The Curriculum

Social Service

Creative Spirit

Tours and Excursions

Scouts
Scouts and Guides camp is a mandatory part of B.Ed. Curriculum. It enhance the awareness about the our duty/service towards the Nation & Society and also provide the knowledge terrorist activities.

Social Service
On the humane side, SRC helps society by arranging various activities like pulse polio camp, tree planting etc. These camps and drives act as a bonding force between our students and the well being of society. We organize childcare camps, in which we provide free medical consultancy, diagnostic services and medicines to the poor and needy people. SRC has also adopted a village awakening with the objective of making a model village for developing rural India.

Financial Assistance
Various scholarships and free-ships are offered to meritorious and financially challenged students at the time of admission. Special fee concessions are available for girls. Medal and cash prizes are awarded to students and faculty for academic excellence.

Tours and Excursions
Various educational as well as recreational tours are also organized to geography, history, culture, customs, tradition and also the technological developments of our country. Tracking and mountaineering arranged in inhospitable terrain to develop the skills of crisis management among the students.

Creative Spirit
Creativity is the mother of all sciences. At SRGC, the students can enhance their talents and explore their creative instincts by participating in activities like designing posters, mehendi competitions etc.

Academic Publications
The Editorial Board, through its various circulations, is responsible for information on diverse aspects which are achieved through the Magazine and Journal viz. "ProbandhanGuru" managed by student members of the Editorial Club under the guidance of faculty members. It aims at bringing out the hidden talents and creativity of students and faculty who present their views and analyze a wide gamut of topics by giving them the ideal opportunity to broaden their horizons. Apart from this, we invite articles from the corporate sector and academicians also.

STUDENT'S FEEDBACK

Guidance and involvement of faculty at SRC gives me great confidence in the creation of new things.

Preeti Singh , MCom

Faculty of Bioscience

About the course

Science is important but it is more important to take up science as a process and not a product. Industrial development of countries and improvement in the quality of life of the people are associated with the application of scientific knowledge. The Faculty of Biosciences is devoted to impart applied knowledge of science, especially in the field of biotechnology and microbiology

Future Prospects

A career in Bioscience offers a wide variety of work assignments. These may include basic research, process development, services, quality control, compliance control or technical sales. Students can also opt for careers genetic engineers, forensic analysts, technicians, lab assistants and instrumentation technicians.

Faculty of Basic Sciences

About the course

Technology is the name we use to describe all the fun things we build using our knowledge to make our lives better and it is the main result of the application of the sciences. Without the application of science there would be no artificial light or heat other than by burning resources such as wood directly, no long distance communication without getting or lighting signaling fires and no medicine at all except by sheer fluke. Basic Sciences help us to explain, how pre-existing things function or why things happen? In this department, students will learn about Sciences (Physics, Chemistry, Mathematics, Zoology, Botany) by the experts & highly qualified and experienced teachers.

Future Prospects

After doing BSc, students can enter in every field of higher education, technical, non-technical, research field etc. and also get a better job everywhere in the industries.

Main Paper

- Botany
- Zoology
- Physics
- Chemistry
- Mathematics

BSc

(Bachelor of Science)

BSc - Physics/ Chemistry/ Mathematics

BSc - Chemistry/ Botany/ Zoology

Duration & Affiliation

Three years full time programme
Affiliated to CCS University, Meerut

Eligibility

10+2 pass with Science

About the courses

The Bachelor of Fine Arts degree is not merely limited to learning the tricks of making paintings and sculpture . It consists of an in-depth training in the fields of fashion designing, textile designing and applied arts. The scope includes such important managing of companies, knowledge of balance sheet and financial aspects, production and marketing of products making and computer programming, production management and a study of market trends. Thus the BFA degree provides huge opportunities to students for high profile careers in the diversified fields of fashion, textile designing and commercial arts. The programme aims at preparing students for creative and applied responsibilities in the world of art and design. Education programme of the fine arts is based on the principle of Indian and Western traditions. Emphasis laid on the individual creativity of the students so that they can create new art forms.

Future Prospects

The students can pursue their careers as entrepreneurs by forming their own business organizations such as advertising agency, textile design workshop, interior designers, creative art studio, garment factory, fashion show room, photo studio, printing They may also work as fashion designers, textile designers, free lance artists etc or may go for higher studies with leading to the MFA degree. The advancement of technology and a growing global economy, the basic concept and meaning of fine arts has been dynamically changing. Nowadays, fine art is performed not only as a hobby or passion but it definitely fetches good career opportunities too.

Faculty of Education

About the courses

Education opens up the minds and hearts of people so that they may communicate and live in harmony and peace. Academic institutions are true temples of learning to serve humanity through knowledge, wisdom and values, while the role of teachers is to impart quality and up-to-date knowledge and to understand the difference as well as the psychology of the students. A teacher with effective teaching skills can make the learning process effective, interesting, energetic and goal oriented. The aim of this course is to impart teachers' training in order to provide teachers of high caliber and innovative attitudes for social development and to develop an understanding of the psychology of their students. This course also develops aesthetic sensibilities and research in education.

Faculty of Journalism & Mass Communication

Courses @SRC

Future Prospects

Graduate and post graduate courses help the candidate to acquire theoretical and application information on various areas related to journalism and mass communication. The course acts as a basis for higher study options, such as doctorate level programs in Journalism and Mass Communications. This helps the candidate to build up a challenging career in media sector with lucrative salary packages. The same allows opportunity to travel and make contact with a lot of admired personalities.

About the course

Bachelor of Journalism and Mass Communication is a three-years undergraduate course and post graduate of Journalism and Mass Communication is a two-years graduate course. BJMC was established in our college in 2008 and MJMC in 2016. Both are affiliated to CCS University Meerut. Courses are further divided into six and four consecutive semesters. The main objective of the course is to make the participant understand the ways through which one can communicate his ideas among masses. The course includes external projects by which the students get the exposure to various professional domains such as news dailies, radio, television, journals etc. Upon completion of the course, the candidate gets a concise and clear picture on diverse aspects of journalism, advertising, and communication. The course study helps one to get either in to the profession of journalism or other media professions such as public relation officer, content research and creation, media planning and so on.
