an

Institution with great opportunities  
where you can shape your career

## Our Vision

To provide a distinctive combination of Academic Excellence and professional relevance to enable the students to match international standards.

## Our Mission

To provide value enriched high quality education at affordable fees and enhance the intrinsic abilities of our students by grooming their personalities so that they may fulfil the demands of today's dynamic world.

## Our Objectives

- To bring SRC to the forefront in academics on an open world map.
- To build a conducive environment for promoting excellence in teaching and research.
- To create a better world by cultivating values in pupils' lives, both personally and professionally.

*Our Visionaries*

## From the desk of Chairman

Dr S C Kulshreshtha, MPhil, PhD

Dear Students,

Being the patron of SRC, it gives me an immense pleasure in offering a warm welcome and extending an invitation to you to join the ever expanding family of SRC.

As an educationist, I am aware of the ground realities and challenges ahead of us and the complexities of the modern professional education in the fast changing scenario of the world. Therefore, we provide result oriented knowledge which should expand the horizons of students. Consequently, our endeavour is to enable our students to face any eventuality in their lives confidently. For this purpose, apart from the state-of-the-art facilities, we provide an environment conducive to high quality research work and development programmes with emphasis on the overall development of the personality of each student.

We are committed to keep our students well-educated about the latest trends in the education sector and corporate world. A number of experts, specialists, professionals and academicians of high repute from renowned institutions and the corporate world are invited for interaction with students so as to strengthen their conceptual foundations, sharpen their intellect, widen their knowledge and improve their communication skills.

My message would be incomplete without complimenting my faculty, staff and students who are working relentlessly in cohesion towards the vision of global quality standards. We, at SRC work and live as a family and hope that your stay with us will be more comfortable, fruitful and memorable.

I welcome you to the SRC family.

(Dr S C Kulshreshtha)

## From the desk of Secretary

Er Sankalp Kulshreshtha, BE, MBA

Dear Students,

Since globalization of Indian economy, the world has witnessed a sea change in the socio-economic scenario. New challenges are emerging that need to be addressed at a fast pace. Therefore, professional and technical education have gained momentum to cater to the perpetual needs of the corporate sector.

Shri Ram College has made its presence felt by committing itself to be a part of this transforming environment by a holistic vision to serve the national and global cooperates with its state-of-the-art facilities, highly committed and motivated faculty and visionary leadership.

Transformation is a never-ending process; so our aim is to always provide the latest quality education which, in case of a professional institute it means a system that effectively and pragmatically combines theory and practice in order to ensure both perfection and relevance.

I wish you great success in life.

(Er Sankalp Kulshreshtha)

## From the Desk of Executive Director

Dear Students,

Your search for one of the best professional colleges must end at Shri Ram College where all efforts to transform you into a disciplined professional and dynamic personality are pursued relentlessly.

Meticulous planning by veteran educationists and leading corporate personalities has resulted in the emergence of the Shri Ram College as an undisputed leading institute in this region with an eye to recognition at a national level. A team of well qualified, experienced and dedicated faculty, sophisticated library facilities and state-of-the-art computer systems have enabled Shri Ram College to have an cutting edge in all respects.

The college campus is well laid-out, pollution free with aesthetically planned landscapes providing an environment conducive to professional studies. Special emphasis is laid on the standards of education and quality of life that is far beyond expectations. Further, our placement mechanism receives much of our attention by ensuring that each and every student of the Shri Ram College enters the professional world with flying colors.

We would like to invite aspiring candidates to be a part of the SRC family. Wishing you an excellent education and a bright career ahead of you.

## What's different @ SRC ?

- S** Strive to give education a new perspective
- R** Reservoir of knowledge
- C** Claim to produce world-class skilled and dedicated professionals

## Spreading their wings

Spreading wings by exemplary educational practices the world over, learning and disseminating in order to create world class professionals empowered to lead the future as well as to create an institution where bright ideas are conceptualized, young brains are mentored and lives are transformed to conquer the future forefronts.

We have plans to promote research and development in the fields of engineering, biosciences, computer sciences, management, legal education and applied arts. The land for expansion of infrastructural facilities has been acquired and construction of buildings of new blocks of SRC are under way, to ultimately make a world class university by integrating all its constituent college.

# Realm of SRGC

To cater to the needs of professional education, highly qualified academicians, prestigious bureaucrats and renowned industrialists under the leadership of the eminent educationist Dr S C Kulashreshtha formed "Shri Ram Charitable Trust" with an aim of promoting quality education at an affordable fees. In a short span of fifteen years, the family of SRGC has grown tremendously and currently has approximately 15000 students & members. This clearly reveals that SRGC has emerged as the most sought after group of colleges and is growing in popularity at a high pace. SRGC is proud of its expanding family.

Today the Shri Ram Group of College (SRGC) has the following colleges in Muzaffarnagar city:

## \*Shri Ram College

(Affiliated to CCS University, Meerut & Approved by UGC, NCTE)

Offers PG courses - MSc Biotechnology, MSc Microbiology, MSc Computer Science, MCom, MEd, MPed, MJMC, MFA in Fashion Designing, Clothing & Textile, Applied Arts  
Offers UG courses- BSc- CBZ, BSc- PCM, BSc Biotechnology, BSc Microbiology, BSc Agriculture, BSc- Home Science, BPES, BEd, BPed, BCA, BBA, BCom, BJMC, BFA & BVoc- Yoga

## \*Shri Ram College of Engineering

(Affiliated to AKTU Lucknow & Approved by UGC, AICTE)  
Offers - BTech in CE, EE, ME, ECE & CS

## \*Shri Ram College of Management

(Affiliated to AKTU Lucknow & Approved by UGC, AICTE)  
Offers MBA, MCA

## \*Shri Ram School of Management

(Affiliated to AKTU Lucknow & Approved by UGC, AICTE)  
Offers MBA, MCA

## \*Shri Ram School of Architecture

(Affiliated to AKTU Lucknow & Approved by UGC, AICTE)  
Offers- BArch

## \*Shri Ram Polytechnic

(Affiliated to UP Board of Technical Education, Approved by AICTE)  
Offers - Polytechnic Diploma in CE, EE, ME, ECE & CS  
ITI courses - Electrician, Machinist, Welder, Turner & Fitter

## \*Shri Ram College of Law

(Affiliated to CCS University, Meerut & Approved by UGC, BCI)  
Offers- LLB, BALLB & Bcom LLB

## \*Shri Ram Girls' College

(Affiliated to CCS University, Meerut & Approved by UGC)  
Offers PG Courses - MSc Food & Nutrition, MSc Clothing & Textile, MSc Home Management  
Offers UG Courses - BSc Home Science

# Computer Centers

Infrastructural  
Facilities @ SRC

First institute in the region to develop Wi-Fi campus

## State-of-the-art Computer Centers

The computer center plays a critical role as a learning center both for the students and faculties. SRC is equipped with a state-of-the-art computing facility with more than 500 Computer Systems with latest hardware & software configuration. SRC is committed to provide the best computer education. Keeping this in mind, it is the first college in the city to establish Wi-Fi campuses connected with each other through wireless networking.

It also provides all relevant latest software packages to enable the students to work on data analysis, text processing, simulation, information management, computer aided designing, computer aided software engineering, data base management, web development, system analysis and software development, preparing each student for the professional job market. Round the clock internet facilities, connectivity through optical fiber with 50 mbps and RF link gives students more opportunities to know the world and enhance their wisdom at a greater speed.

## Sports

Sports activities strengthen mental fitness just as much as they strengthen physical fitness and agility. Hence, we encourage our students to develop and exhibit their sports talent; not just excel in sports but also to evolve as fit and energetic professionals. Keeping in view the above objectives of the overall development of students, various sports and physical development activities are encouraged amongst students. To enable students to enjoy sports, the campuses are equipped with lush green playgrounds for hockey, football, handball, cricket along with separate courts of badminton, basketball, tennis, volleyball, kho-kho, kabaddi, athletics (track and field), hall for table tennis, indoor games, gymnastics and yoga.

## Gymnasium

Along with mental fitness, emphasis is also laid on physical fitness. SRC is the only institute in the city to have a fully well equipped and modernized, 24-stations multi gymnasium, equipped with the latest equipments like joggers, vibration seats, incline-decline benches, aerobics mats, weight lifting sets etc. Thus, at SRC, students have wide options to choose from a range of sports activities to ensure that they stay healthy enough to cope up with stress.

# Training & Placement Cell

SRC has a very active and dedicated Training & Placement Cell, which is being operated under the supervision of the Training & Placement Officer. It provides best career options to the students through an active interaction with extensive resources. Placement Cell works closely with the corporate world to provide employment opportunities to SRC students. The institute also provides additional skills enhancement support to the students. Besides maintaining active contacts with the industry SRC has close links with placement agencies to ensure good placement.

# Faculty Resources

SRC is overwhelmingly rich with its qualified faculty members who are experts in their fields

One of the biggest strengths of any institute lies in its faculty members. SRC is overwhelmingly rich with its qualified faculty members who are experts in their fields. The faculty members have distinguished academic achievements in different related disciplines and are actively involved in teaching, training, research and consultancy. Our faculty is driven by the philosophy of knowing which resources are to be blended and in what

proportion to mould each student's individual capacities to the optimum level. We are fully aware that high quality teaching plays a key role in inculcating a stance towards life long learning. We impress upon the faculty members to be friend, philosopher guide of the students, besides the student-teacher relationship.

## Academic Publications

The Editorial Board, through its various circulations, is responsible for disseminating knowledge and information on diverse aspects which are achieved through the Magazine and Journal viz. "Probandhan Guru" managed by student members of the Editorial Club under the guidance of faculty members. It aims at bringing out the hidden talents and creativity of students and faculty who present their views and analyze a wide gamut of topics by giving them the ideal opportunity to broaden their horizons. Apart from this, we invite articles from the corporate sector and academicians also.

## Financial Assistance

Various scholarships and free-ships are offered to meritorious and financially challenged students at the time of admission. Special fee concessions are available for girls. Medal and cash prizes are awarded to students and faculty for academic excellence.

Science Exhibition

## Creative Spirit

Creativity is the mother of all sciences. At SRC, the students can enhance their talents and explore their creative instincts by participating in activities like designing posters, organizing rangoli making, mehendi competitions etc.

Painting for Guinness Book

Scout & Guide Camp

## Social Service

On the humane side, SRC helps society by arranging various activities like pulse polio camp, tree planting etc. These camps and drives act as a bonding force between our students and the well being of society. We organize childcare camps, in which we provide free medical consultancy, diagnostic services and medicines to the poor and needy people. SRGC has also adopted a village for rural upliftment and awakening with the objective of making a model village for developing rural India.

Blood Donation Camp

Industrial Tour

## Tours and Excursions

Various educational as well as recreational tours are also organized to give students exposure to geography, history, culture, customs, tradition and also the technological developments of our country. Tracking and mountaineering events are also arranged in inhospitable terrain to develop the skills of crisis management among the students.

NSS Camp

Wall Painting of the City

Essay Competition by Punjab National Bank

# Fashion Splash

Fashion Splash is a great platform for the Fashion Designing Students who can present their Own designed apparels to show their creativity, styles, silhouettes etc.

Beyond  
The Curriculum  
@ SRC

# Cultural Programmes

SRC's cultural society provides a forum for bringing out the hidden talents and creativity of students through various cultural activities such as dance, drama, debates, seminars and other competitions. Culture at SRC is marked by a strong belief of unity in diversity. Our students come from different cultures and religions yet we share the same spirit at the campus we celebrate all the festivals like Holi, Diwali, Lohri, Eid, Christmas etc.

Beyond  
The Curriculum  
@ SRC

## Landmarks @ SRC

## Innovation Center

Giving Shape to Idea.....

Landmarks  
@ SRC

An Initiative taken by Shri Ram College with:

### VISION

To provide an environment to the innovators to work upon their ideas, to expertise over them and to reach their destination of becoming a successful Entrepreneur

### ELECTRO SPARK

.....Exploring Electronics

In order to find the hidden practical talents of the college and to explore the concepts of Innovation, organized a ELECTRO SPARK-2016, an Exhibition with a theme "Exploring Electronics" on 25.10.2016 as a part of event carried under Innovation Center.

Total 20 Models were presented by the students included Human Detection Robot, Visitor Counter, Metro Train Prototype Bluetooth Controlled Home, Automation, Ultra Sonic Sensor Based Collision Avoider, Smart SRC etc.

# Science Exhibition-

In order to find out the hidden talent of Muzaffarnagar City and giving them a platform running on the path of spreading in air of Science and Innovation, Shri Ram College organised a Science Exhibition as a part of Tech Fair with a theme Innovative India for the students of Secondary and Senior Secondary level. About 178 Models from 67 Schools in which total 1588 students participated were exhibited in the event. The event was inaugurated by Mr. Manoj Kumar Singh, ADM (E) Muzaffarnagar and the Award Ceremony was chaired by Mr Babloo Kumar, SSP Muzaffarnagar the Jury included renowned Professors from degree Colleges of the city. The event proved to be very successful as a lot of Innovative minds got an Exposure

The participation were divided in two groups:  
Group A- comprised of 9th- 10th standard students  
Group B- comprised of 11th- 12th standard students  
Models were divided into two categories namely- WORKING MODELS & NON WORKING MODELS.

The seven subthemes of the exhibition were

- ✍ Natural Resource Conservation
- ✍ Space Exploration
- ✍ Energy
- ✍ Disaster Managements
- ✍ Science & Society
- ✍ Nuclear Science
- ✍ Health & Environment

## Attractive Phase of the Exhibition were

- ✍ Cash Prizes for I, II & III position holders in both categories and the groups
- ✍ Consolation Prizes for two teams in each category of both groups
- ✍ Participation Certificates for all Participants
- ✍ Gifts for faculty coordinators from Schools

## CIFE

(Center for Innovation, Fabrication & Entrepreneurship)

## Techno Camp

Can't we fill the gap between Industries and our Institute ? Can't we produce Entrepreneurs from our place ? Can't we be recognised by our product in the market and sooner in the country and then in the world

## Landmarks @ SRC

Yes all this is possible and for the same

Innovation involves the process from Opportunity Identification, Ideation or Invention to development prototyping, production marketing and sales. While Entrepreneurship only needs to involve commercialization.

Fabrication is the process that lies and filling the gap between innovation and Entrepreneurship.

CIFE is a center and a part of Innovation Centre that we have established at SRC where Innovative Ideas will be given shape. This will be an Incubation Centre too. The Center will produce Trained Entrepreneurs bridging the gap between Industries and Institute and will establish a unique identity in this competitive World of Technology

The CIFE program is divided into three Phases:

Innovation, Fabrication & Entrepreneurship. During the First year (or summers break) students are trained to go through the process of Innovation, in the next year the same students are made to go through the process of Fabrication and at last in their third summers, they develop them into skilled Entrepreneur.

## VISION:

To Provide an environment to the Innovators to work upon their ideas, to expertise over them and to follow upon the path of becoming a successful Entrepreneur.

## MISSION:

To create a system that will encourage the spirit of entrepreneurship among youngsters through research, training, testing and incubation leading to the self employment that is really the demand of today's scenario.

This year the program titled "TECHNO-CAMP-2016" was conducted In order to inculcate the virtue of Innovation and to bring out the hidden talent of being Innovative from students what we did was developing certain abilities in the students

Ability to Learn

Ability to acquire and then implement Knowledge

Ability to work in a team

Ability to Lead

Ability to Decide

Ability to manage the time

Ability to Innovate

And so on.....

# MIT (USA)-SRC Joint Research Project Waste Product Management with Massachusetts Institute of Technology, USA .....A step towards Sustainable Development

Landmarks  
@ SRC

With the continuation of MIT-SRC Solid Waste Management Project now the phase IV is initiated which is the awareness campaigning phase. The phase is executed in two areas of middle income group i.e., Teacher's Colony and Santosh Vihar. The aim of this phase is to make understand people of these localities about waste source segregation. With this an awareness drive is also organized in most busiest market area of Muzaffarnagar city i.e., Shiv Chowk and Bhagat Singh Road with the theme to stop using polythenes. The drive is completed successfully with the support of honorable chairman of municipality board Sh. Pankaj Aggarwal ji and thousands of SRCIANS.

The waste source segregation drive includes distribution of 2 bin which of red and green colour with the white bag also called as 2 Bin 1 Bag concept. These were distributed to the selected 30 family of Gandhi colony and Santosh Vihar. People are asked to segregate the waste as organic, inorganic and recyclable. Also feedback sheets were given to Santosh Vihar area. The result of the above phase was that the amount of waste generated is reduced drastically from the previous data. Now for further analysis the phase V will be started soon which transform the Muzaffarnagar city into a clean and green city. For this session two successful seminars were organized with the galaxy of researchers and professors from MIT, Boston, USA .

# Vision

... An Exhibition of Fine Arts

Beyond  
The Curriculum  
@ SRC

The Exhibition 'Vision' is organized by the Faculty of Fine Arts every year to make people aware in the field Fine Arts. All the work done by the students throughout the year is displayed in this exhibition. Various competitions are also organized during this period to develop confidence & feeling of healthy race among the students and to create the feeling of co-operation, required to work with a group. Workshops are also organized during this period.

# SRC International

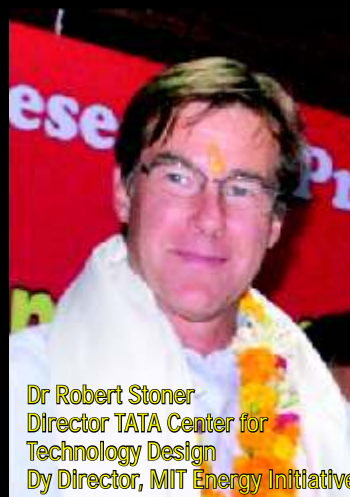

SRC has established Shri Ram International Center and has signed a collaboration Agreement Institute of Technology Blanchardstown (ITB), Ireland in 2011. Our core objective behind this is to establish inter-institutional interaction and co-operation in the field of academic qualification, student exchange programme, joint research programme and rendering the endeavour culminating into compatible institution-industry interface globally. ITB is Ireland's newest government owned institute of Technology established in Sep 1999, with excellent facilities, state-of-art-research Learning & Innovation Center (LINC) and strong student support system with excellent mentoring system for International Students. Another great opportunity for SRC Students is "Earn while you Learn" i.e. part time working opportunity given by Irish Government to the students. Also, we are working together in the field of Fashion with Czech Republic. Furthermore, Our campus is also visited by delegation from Taiwan for studies and project work of our students in Taiwan.

### Eligibility:

10+2 with 40% marks for SC/ST & 45% for  
others in any discipline  
with Maths at 10th level

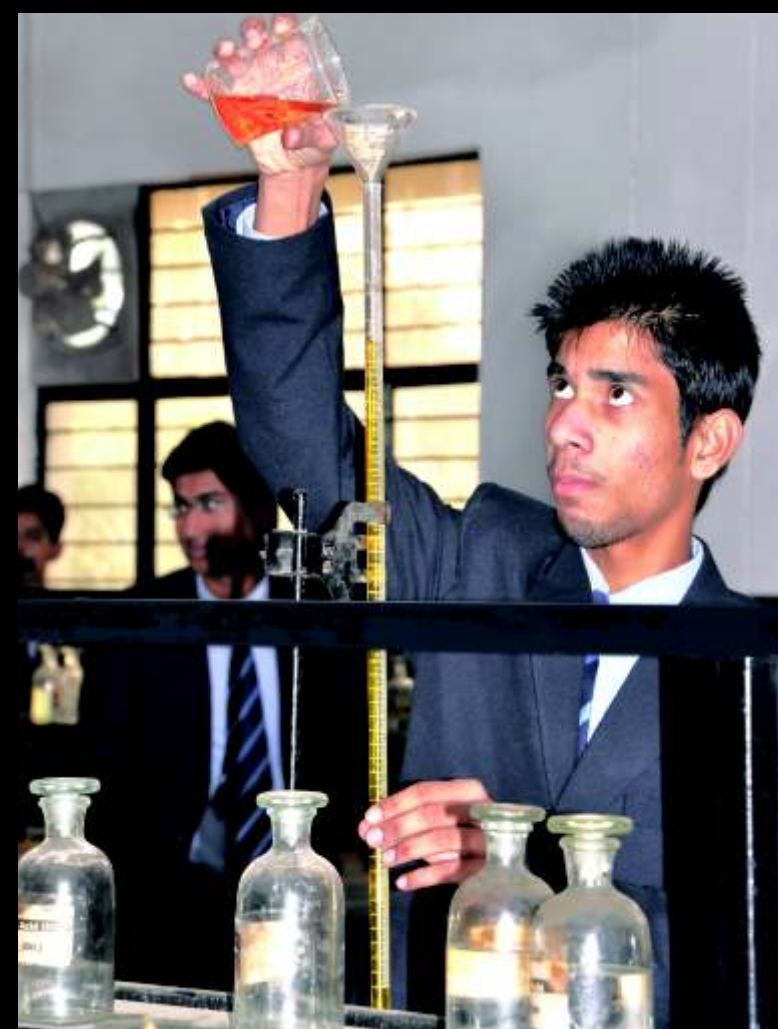

## About the course

Science is important but it is more important to take up science as a process and not a product. Industrial development of countries and improvement in the quality of life of the people are associated with the application of scientific knowledge. The Faculty of Applied Sciences is devoted to impart applied knowledge of science, especially in the field of biotechnology, microbiology and home science.

## Future Prospects

A career in Biosciences offers a wide variety of work assignments. These may include basic research, process development, production, technical services, quality control, compliance control or technical sales. Students can also opt for careers as genetic engineers, bioprocess engineers, forensic analysts, molecular biologists, lab technicians, lab assistants and instrumentation technicians.

## MSc Biotech

(Master of Science - Biotechnology)

Two years full time programme affiliated to CCS University, Meerut

### Eligibility:

BSc Biotech/ Botany/ Zoology/ Life Science/ Microbiology/ Biochemistry with 45% marks for SC/ ST & 50% marks for others

### Eligibility:

10+2 with Science/ Agriculture with 40% marks for SC/ST & 45% marks for others

## BSc

(Bachelor of Science)

BSc - Physics/ Chemistry/ Maths

BSc - Chemistry/ Botany/ Zoology

Three years full time programmes affiliated to CCS University, Meerut

### Eligibility:

10+2 pass with Science

# Faculty of Basic Sciences

## About the course

Technology is the name we use to describe all the fun things we build using our knowledge to make our lives better and it is the main result of the application of the sciences. Without the application of science there would be no artificial light or heat other than by burning resources such as wood directly, no long distance communication without getting or lighting signaling fires and no medicine at all except by sheer fluke. Basic Sciences help us to explain, how pre-existing things function or why things happen? In this department, students will learn about Sciences (Physics, Chemistry, Mathematics, Zoology, Botany) by the experts & highly qualified and experienced teachers.

## Future Prospects

After doing BSc, students can enter in every field of higher education, technical, non-technical, research field etc. and also get a better job everywhere in the industries.

## Main Paper

- Botany
- Zoology
- Physics
- Chemistry
- Mathematics

# BSc

(Bachelor of Science)

BSc - Physics/ Chemistry/ Mathematics  
BSc - Chemistry/ Botany/ Zoology

## Duration & Affiliation

Three years full time programme  
Affiliated to CCS University, Meerut

## Eligibility

10+2 pass with Science

## About the courses

The Bachelor of Fine Arts degree is not merely limited to learning the tricks of making paintings and sculpture. It consists of an in-depth training in the fields of fashion designing, textile designing and applied arts. The scope includes such important aspects as forming and managing of companies, knowledge of balance sheets and financial aspects, production and marketing of art products, making and developing designs through computer programming, production management and a study of market trends. Thus the BFA degree provides huge opportunities to students for high profile careers in the diversified fields of fashion, textile designing and commercial arts.

The programme aims at preparing students for creative and applied responsibilities in the world of art and design. Education programme of the fine arts is based on the principle of Indian and Western traditions. Emphasis is laid on the individual creativity of the students so that they can create new art forms.

## Future Prospects

The students can pursue their careers as entrepreneurs by forming their own business organizations such as advertising agency, textile design workshop, beauty parlour, interior designers, creative art studio, garment factory, fashion showroom, photo studio, printing press etc. They may also work as fashion designers, textile designers, free lance artists etc. With the advancement of technology and a growing global economy, the basic concept and meaning of fine arts has been dynamically changing. Nowadays, fine art is performed not only as a hobby or passion but it definitely fetches good career opportunities too.

Sculpture Workshop**

# Faculty of Journalism & Mass Communication

## Future Prospects

Graduate and post graduate courses help the candidate to acquire theoretical and application information on various areas related to journalism and mass communication. The course acts as a basis for higher study options, such as doctorate level programs in Journalism and Mass Communications. This helps the candidate to build up a challenging career in media sector with lucrative salary packages. The same allows opportunity to travel and make contact with a lot of admired personalities.

## About the course

Bachelor of Journalism and Mass Communication is a three-years undergraduate course and post graduate of Journalism and Mass Communication is a two-years graduate course. BJMC was established in our college in 2008 and MJMC in 2016. Both are affiliated to CCS University Meerut. Courses are further divided into six and four consecutive semesters. The main objective of the course is to make the participant understand the ways through which one can communicate his ideas among masses. The course includes external projects by which the students get the exposure to various professional domains such as news dailies, radio, television, journals etc. Upon completion of the course, the candidate gets a concise and clear picture on diverse aspects of journalism, advertising, and communication. The course study helps one to get either in to the profession of journalism or other media professions such as public relation officer, content research and creation, media planning and so on.

# Faculty of Education & Physical Education

## About the Courses

Education opens up the minds and hearts of people so that they may communicate and live in harmony and peace. Academic institutions are true temples of learning to serve humanity through knowledge, wisdom and values, while the role of teachers is to impart quality and up-to-date knowledge and to understand the difference as well as the psychology of the students. A teacher with effective teaching skills can make the learning process effective, interesting, energetic and goal oriented. The aim of this course is to impart teachers' training in order to provide teachers of high caliber and innovative attitudes for social development And to develop an understanding of the psychology of their students. This course also develops aesthetic sensibilities and research in education.

## Courses @ SRGC

### Future Prospectus

Now days it is mandatory for Government as well as private to have qualification for those who want to make career in teaching. So this course has wide scope for the students who wish to serve society as teacher. A career in sports covers areas like participant as professional players, umpires, coaches and physical education administrators. Recently for sports promotion the Government has made it mandatory for all schools/ colleges to have physical education qualified teachers, so that school going students grow healthy.
