

SHRI RAM COLLEGE

FACULTY OF BIOSCIENCE

Statement of Purpose

The UG and PG degree in Biotechnology & Microbiology consists of a series of Bioscience foundation courses followed by advanced courses that survey a range of biotechnological and microbiological sub-disciplines. These include courses focused on the interaction between biological organisms and human disease, such as infectious diseases, medical microbiology, and immunology, plant biotechnology, animal biotechnology but also courses that investigate the role of biotechnological and microbiological approaches in the environment including environmental microbiology, environmental biotechnology, microbial ecology and industrial microbiology, Industrial biotechnology. From bioremediation to virology, students will develop an understanding of biological and chemical systems of organisms — and develop a foundation for a career in a range of professions that involve biotechnology & microbiology.

Programme offered

P1: B.Sc. Biotechnology (3 yrs Annual)

P2: B.Sc. Microbiology (3 years Annual)

P3: M.Sc. Biotechnology (2 years consisting of 4 semester)

P4: M.Sc. Microbiology (2 years consisting of 4 semester)

Programme Outcomes (POs), Programme specific outcomes (PSOs) and Course outcomes (COs)

PROGRAMME 1 (P1): B.Sc. Biotechnology

Programme Outcomes (POs)

- The students acquire strong theoretical background along with necessary skills and techniques in biological sciences and have the ability to use these tools in industry, hospitals, community and institutes or any other profession they would like to pursue.
- By studying the components of living cells, students can learn how to control, fix and modify them to our benefit. This knowledge has already lead to the creation and manufacture of various products that help in the diagnosis and treatment of diseases (e.g. the production of antibiotics, insulin, and other genetically engineered medicines such as safer recombinant vaccines). Biotechnology is also playing a role in providing services in the areas like healthcare, food, agriculture, energy and the environment.
- Biotechnology assimilates in itself a number of disciplines. There is a great demand for biotechnologists in countless diversified industries and sectors such as, Agriculture, Animal Husbandry, Environmental Conservation, Genetic Engineering, Health Care, Medicine, Industrial Research and Development.
- The curriculum is designed in such a way that in the first year the students are exposed to the fundamental aspects of plant science, animal science, microbial world and chemistry. Subsequently, they are made to learn specialized aspects such as enzymology, immunology.

Shri Ram College
Muzaffarnagar

bacteriology, tissue culture, genetic engineering etc along with practical applications. During the final year the students are supposed to work on the project of practical application. They are also introduced to the conservation aspects of biodiversity and business entrepreneurial skills.

- The students who have acquired a graduate degree in biotechnology can easily find a suitable position in a number of industries engaged in processing and developing agricultural and biological products, bio-processing, pharmaceutics and chemicals.
- Academic performance evaluation of a student is according to a CCS Meerut University examination scheme (internal and external).

Programme Specific Outcomes (PSO)

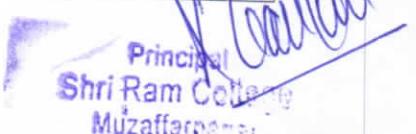

After successful completion of program the Graduates will be able to ;

- Pursue higher education (PG) from India or abroad.
- Identify and formulate healthcare, textile, cosmetics, agriculture, marine products.
- Understand biology, mechanism, and dynamics and work on laboratory techniques involving microorganisms, plants and animals tissues.
- Developing many useful products for human and cleaning the environment.

Course outcome (COs)

| | Course | Course Outcome |
|-----|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CO1 | Cell Biology | <p>This course presents the types and structural details of the basic unit by which all the living things are made of (the cell). Goals: To make the student to understood the concept of cell and their activities and molecular signaling.</p> |
| CO2 | Bioinstrumentation | <p>Enable the student to get sufficient knowledge in principles and applications of bio instruments.</p> |
| CO3 | Microbiology | <p>This course presents the study of Micro organisms. Goals: To make the student to understood Micro organisms and their participation in day to day activities. Objectives: On successful completion of the subject the student should have understood the role of microorganisms in the diversity</p> |
| CO4 | Biochemistry | <p>This course presents the chemical reactions or metabolic functions in the living system and their regulations. Goals: To make the student to understood the concept of biochemical regulations. Objectives: On successful completion of the subject the student should have understood: Basic biomolecules, viz protein fats, enzymes and their relevance to biological molecular stabilization.</p> |

| CO17 | Biophysics and Chemistry | <p>This course presents the principles and applications of Biotechnology explaining the biomolecules and applications of biophysical methods.</p> <p>Goals : To enable the students to learn the immuno techniques and radio labeling techniques.</p> <p>Objectives: On successful completion of the course the students will be aware of 1. Microscopic techniques 2. Electro physiological methods. 3. Biomolecules structure determination using x-ray diffraction</p> |
| CO18 | Enzyme and Enzyme engineering | <p>Students will be able to extend their study in enzymology with respect to identification and purification of enzyme.</p> <p>Goals: They will be able to describe and generalize the role of co enzyme in enzyme catalysis. Also, they will be able to interrelate between anabolism and catabolism.</p> <p>Objectives: Students will be able to elaborate their study about bioenergetics.</p> |

PROGRAMME 2: B.Sc. Microbiology

Programme Outcomes (POs)

- Students will be able to communicate scientific information effectively, especially relating to microbiological organisms, and the roles of microbial organisms in ecosystem function and health-related issues
- Students will be able to collect, analyze and interpret scientific data, including developing a familiarity with microbiology laboratory techniques and safety procedures
- Students will develop proficiency in the quantitative skills necessary to analyze biological problems (e.g., arithmetic, algebra, dimensional analysis, and statistical analysis as applied to biology), with a knowledge of specialized techniques used in microbiology
- Students will be able to apply the scientific method as a demonstration that they understand its application furthering our knowledge of the microbial world
- Students will be able to describe fundamental principles of biology e.g., central dogma, diversity of life, inheritance and how these principles relate to microorganisms
- Students will be able to describe unique microbial genetic systems (i.e., prokaryotic and viral genomes, lateral gene transfer, plasmid structure and function, etc.)
- Students will appreciate the biological diversity of microbial forms, and appreciate that this diversity results from evolutionary processes
- Students will be able to access and interrogate the primary scientific literature and be aware of leading journals in the field of microbiology

Co-ordinator
IQAC, Shri Ram College,
Muzaffarnagar

- Students will be able to synthesize material from lower division courses across a biological sub-discipline and apply this to advanced course material (i.e., a Capstone experience); specifically, students will draw from their learning experiences in the fields of microbial ecology & evolution, microbial physiology, bioremediation, immunology, etc., as related to the topic of their capstone course
- Students will gain familiarity with the unique role of microbes play in genetic modification technologies (i.e., creation of GMOs, industrial applications, gene therapy, etc.)
- Students will gain familiarity with the role of microbes in human disease, the role of microbes in issues of international health, and the human immune response to microbial infection
- Students will gain familiarity with the role of microbes in the context of ecosystem function (e.g., microbial ecology, microbiome, etc.)

Programme Specific Outcomes (PSO)

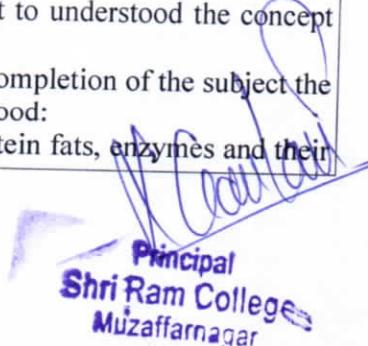

After successful completion of program the Graduates will be able to ;

- Pursue higher education (PG) from India or abroad.
- Identify and formulate healthcare, textile, cosmetics, agriculture, marine products.
- Understand biology, mechanism, and dynamics and work on laboratory techniques involving microorganisms, plants and animals tissues.
- Developing many useful products for human and cleaning the environment.

Programme 3 (P3): M.Sc. Biotechnology

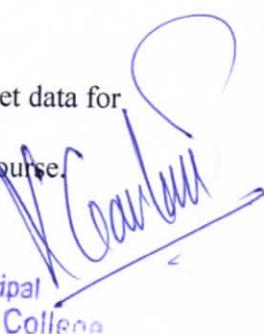

Programme Outcome (POs)

- Students will be able to define and explain major concepts of biological sciences.
- Students will be able to correctly use biological instrumentation and proper laboratory techniques.
- Students will be able to recognize the relationship between structure and functions at all levels that is molecular, cellular and organism.
- Students will be able to conduct experiments using skills appropriate to subdivisions
- Students will be able to evaluate, interpret practical data and infer appropriate results supported by the collected data.
- Students will be able to critically evaluate primary literature, in oral and written form and subsequently develop oral and written communication skills.
- Exposure provided to the students during the programme duration would help them gain awareness of career options in the biological sciences.
- Students will develop an ability to function effectively in multidisciplinary teams for accomplishment of set goals.
- Students will be able to expand their learning horizons through use of multidimensional learning resources to keep themselves at par with the pace of scientific development worldwide.
- Students will demonstrate an understanding of the impact of science on society and an ability to engage in lifelong learning.

PROGRAM SPECIFIC OUTCOMES (PSOs)

- Students will be able to design, conduct experiments, analyze and interpret data for investigating problems in Biotechnology and allied fields.
- Demonstrate proficiency in basic science and foundation biotechnology course.
- Demonstrate a working knowledge of advanced biological sciences.

Co-ordinator
IQAC, Shri Ram College,
Muzaffarnagar

Principal
Shri Ram College
Muzaffarnagar

- Demonstrate competence in application of engineering principles to biological systems.
- Demonstrate an ability to appear for National level examination to pursue higher studies.
- Demonstrate practical and theoretical knowledge essential for pursuing higher studies.
- Several career opportunities are available for students with biotechnology background abroad especially in countries like Germany, Australia, Canada, USA and many more where biotechnology is a rapidly developing field after pursuing their higher education.
- Demonstrate an ability to identify careers in biotechnology, domain like Pharmaceutical, Food Industry etc, and skills required to work in a biotechnology laboratory or manufacturing facility. Some of the major pharmaceutical and drug companies' hiring biotechnological professionals include Dabur, Ranbaxy, Hindustan Lever and Dr Reddy's Labs, food processing industries, chemical industry and textile industry as well. Beside this industries also employ bio- technological professionals in their marketing divisions to boost up business in sectors where their products would be required.
- Entrepreneurship ventures such as consultancy and training centres can be opened

| CO5 | Microbial Genetics | <p>This course presents the way characters get transferred through generations and methods to analyze and modify them.</p> <p>Goals: To make the student to understand the concept of genes and their behaviour</p> <p>Objectives: On successful completion of the subject the student should have understood: Basic genetics and their role.</p> |
| CO6 | Molecular Biology | <p>This course presents the genetics at molecular level</p> <p>Goals: On successful completion of the subject the student should have understood the molecular aspects of Molecular biology</p> |
| CO7 | Microbial Biotechnology | <p>This course presents the application of Plants and animals in Biotechnology</p> <p>Goals: To make the student to understand usage of Plant and Animal products and exploitation of them in Biotechnology.</p> <p>Objectives: On successful completion of the subject</p> |

|------|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | | the student should have understood: Crop development, Callus culture, Biotechnological applications of plants, Animal tissue culture, Animal products, production & improvement of them |
| CO8 | Microbial Immunology | <p>This course presents the basic defense mechanism of animals</p> <p>Goals: To make the student to understand the concept immunology</p> <p>Objectives: On successful completion of the subject the student should have understood:</p> <p>Immunity, Antigen, Antibody, Cells of immune system and their function and regulations</p> |
| CO9 | Environmental Microbiology | <p>This course presents the Study and the Management of the Environment</p> <p>Goals: To make the student to understand Ecology and Conservation of the Environment</p> <p>Objectives: On successful completion of the subject the student should have understood Ecosystem, energy flow and Uses and values of Biodiversity.</p> |
| CO10 | Recombinant DNA technology (RDT) | <p>This course presents the mechanism of gene manipulation</p> <p>Goals: To make the student to understand the concept of gene manipulation and gene transfer technologies</p> <p>Objectives: On successful completion of the subject, the student should have understood: Manipulation of genes, Transfer techniques, Expression systems and methods of selection</p> |
| CO11 | Industrial Microbiology | <p>This course presents the utility of Microbes</p> <p>Goals: To make the student to understand the applications of Microbes</p> <p>Objectives: On successful completion of the subject the student should have understood: Fermentation, Microbial products, Vaccine and antibiotics.</p> |
| CO12 | Microbial diversity | <p>This course presents the principles Components of Biodiversity (Ecosystem, Genetic and Species diversity) - Assigning values to biodiversity - Species concepts - Animal diversity: (Distribution, inventory, species richness) - Biodiversity Hotspots (Western Ghats, Indo-Burma region).</p> |
| CO13 | Genomics, proteomics and bioinformatics | <p>This paper presents the basics of: mapping, Genome sequencing, Genome sequence assembly: Base calling and assembly programs, Genome annotation: Gene ontology, Automated genome annotation, Annotation of hypothetical proteins and Genome economy. Comparative genomics: Whole genome alignment, Finding a</p> |

Methodology to Evaluate Course & Program Outcomes

| | | |
|-------------------------------------------|------------|-----------------------------------------|
| Direct Assessment (External + Internal) | 70% | |
| Indirect Assessment (A1 + Assignment+ TA) | 30% | |
| Direct Assessment Benchmark | 40% | |
| 1 Level 1 | 60% | 60% Students secure more than 40% marks |
| 2 Level 2 | 70% | 70% Students secure more than 40% marks |
| 3 Level 3 | 80% | 80% Students secure more than 40% marks |
| Indirect Assessment Benchmark | 40% | |
| 1 Level 1 | 60% | 60% Students secure more than 40% marks |
| 2 Level 2 | 70% | 70% Students secure more than 40% marks |
| 3 Level 3 | 80% | 80% Students secure more than 40% marks |

Program Outcomes (POs) [For Traditional Courses]

- PO1.Critical Thinking:** Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.
- PO2.Effective Communication:** Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.
- PO3.Social Interaction:** Elicit views of others, mediate disagreements and help reach conclusions in group settings.
- PO4.Effective Citizenship:** Demonstrate empathetic social concern and equity centred national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.
- PO5. Ethics:** Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.
- PO6. Environment and Sustainability:** Understand the issues of environmental contexts and sustainable development.
- PO7. Self-directed and Life-long Learning:** Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes

CO & PO Mapping
(Three Levels: 3=Strongly Related, 2=Moderately Related, 1=Slightly Related)

Accessing Total Attainment for given Subject:

Direct Assessment (70%)

University Exams & Internal Exams

(70%): 70% of (1 or 2 or 3) eg. 70% of 1 is 0.7

Indirect Assessment (30%)

Attendance + Assignment/Presentation+ TA

(30%): 30% of (1 or 2 or 3) eg. 30% of 3 is 0.9

Therefore Total Attainment for Subject Name (Sub code :) is $(0.7+0.9) = 1.60$

Accessing PO attainment through CO's:

Formula for Computation: Total Attainment for Subject X AVG of POi

3

eg: $3 \times 1.75 / 3 = 1.75$

Name of Programme : B.SC(MICRO)

Name of Course/ Subject :IMMUNOLOGY
Assessment of Students

Methodology to Evaluate Course & Program Outcomes

| | |
|------------------------------------------|-----|
| Direct Assessment (External + Internal) | 70% |
| Indirect Assessment (AT +Assignment+ TA) | 30% |

| Direct Assessment Benchmark | | 40% | Points |
|-----------------------------|---------|---------------------------------------------|--------|
| 1 | Level 1 | 60% 60% Students secure more than 40% marks | |
| 2 | Level 2 | 70% 70% Students secure more than 40% marks | Points |
| 3 | Level 3 | 80% 80% Students secure more than 40% marks | Points |

| Indirect Assessment Benchmark | | 40% | 1 2 3 |
|-------------------------------|-----|-----------------------------------------|-------------|
| Level 1 | 60% | 60% Students secure more than 40% marks | |
| Level 2 | 70% | 70% Students secure more than 40% marks | |
| Level 3 | 80% | 80% Students secure more than 40% marks | |

Program Outcomes (POs) [For Traditional Courses]

PO1.Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.

PO2.Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.

PO3.Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.

PO4.Effective Citizenship: Demonstrate empathetic social concern and equity centred national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.

PO5. Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.

PO6. Environment and Sustainability: Understand the issues of environmental contexts and sustainable development.

PO7. Self-directed and Life-long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes

Methodology to Evaluate Course & Program Outcomes

| | |
|-------------------------------------------|-----|
| Direct Assessment (External + Internal) | 70% |
| Indirect Assessment (AT + Assignment+ FA) | 30% |

| Direct Assessment Benchmark | | 40% | Points |
|------------------------------------|---|-----------------------------------------|--------|
| Level 1 | 1 | 60% Students secure more than 40% marks | |
| Level 2 | 2 | 70% Students secure more than 40% marks | Points |
| Level 3 | 3 | 80% Students secure more than 40% marks | Points |

| Indirect Assessment Benchmark | | 40% | Points |
|--------------------------------------|---|-----------------------------------------|--------|
| Level 1 | 1 | 60% Students secure more than 40% marks | |
| Level 2 | 2 | 70% Students secure more than 40% marks | Points |
| Level 3 | 3 | 80% Students secure more than 40% marks | Points |

Program Outcomes (POs) [For Traditional Courses]

- PO1.Critical Thinking:** Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.
- PO2.Effective Communication:** Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.
- PO3.Social Interaction:** Elicit views of others, mediate disagreements and help reach conclusions in group settings.
- PO4.Effective Citizenship:** Demonstrate empathetic social concern and equity centred national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.
- PO5. Ethics:** Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.
- PO6. Environment and Sustainability:** Understand the issues of environmental contexts and sustainable development.
- PO7. Self-directed and Life-long Learning:** Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes

Methodology to Evaluate Course & Program Outcomes

| | |
|------------------------------------------|-----|
| Direct Assessment (External + Internal) | 70% |
| Indirect Assessment (AT +Assignment+ IA) | 30% |

| Direct Assessment Benchmark | | 40% | Points |
|------------------------------------|-----|-----------------------------------------|--------|
| Level 1 | 60% | 60% Students secure more than 40% marks | |
| 1 | | | |
| Level 2 | 70% | 70% Students secure more than 40% marks | Points |
| 2 | | | |
| Level 3 | 80% | 80% Students secure more than 40% marks | Points |
| 3 | | | |

| Indirect Assessment Benchmark | | 40% | Points |
|--------------------------------------|-----|-----------------------------------------|--------|
| Level 1 | 60% | 60% Students secure more than 40% marks | |
| 1 | | | |
| Level 2 | 70% | 70% Students secure more than 40% marks | Points |
| 2 | | | |
| Level 3 | 80% | 80% Students secure more than 40% marks | Points |
| 3 | | | |

Program Outcomes (POs) [For Traditional Courses]

PO1.Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.

PO2.Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.

PO3.Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.

PO4.Effective Citizenship: Demonstrate empathetic social concern and equity centred national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.

PO5. Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.

PO6. Environment and Sustainability: Understand the issues of environmental contexts and sustainable development.

PO7. Self-directed and Life-long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes

CO & PO Mapping

(Three Levels: 3-Strongly Related, 2-Moderately Related, 1-Slightly Related)

[Handwritten signature]

[Handwritten signature]

Subject Name: Diversity –Instruments and microbial techniques
Code: 102

| | Attainment | PO 1 | PO 2 | PO 3 | PO 4 | PO5 | PO6 | PO7 |
|--------------------|------------|------|------|------|------|------|-----|------|
| COs - 1 | 3 | 2 | 2 | 1 | 2 | 2 | 1 | 2 |
| COs - 2 | | 2 | 1 | 1 | 2 | 1 | 2 | 2 |
| COs - 3 | | 1 | 2 | 2 | 1 | 2 | 1 | 1 |
| COs - 4 | | 2 | 2 | 1 | 2 | 2 | 2 | 2 |
| Average | | 1.75 | 1.75 | 1.25 | 1.75 | 1.75 | 1.5 | 1.75 |
| Average Attainment | | 1.75 | 1.75 | 1.25 | 1.75 | 1.75 | 1.5 | 1.75 |

Accessing Total Attainment for given Subject:

Direct Assessment (70%)

University Exams & Internal Exams

(70%): 70% of (1 or 2 or 3) eg. 70% of 1 is 0.7

Indirect Assessment (30%)

Attendance + Assignment/Presentation+ TA

(30%): 30% of (1 or 2 or 3) eg. 30% of 3 is 0.9

Therefore Total Attainment for Subject Name (Sub code :) is $(0.7+0.9) = 1.60$

Accessing PO attainment through CO's:

Formula for Computation:

Total Attainment for Subject X AVG of POi

3

eg: $3 \times 1.75/3 = 1.75$

Name of Programme : M.SC (MICRO)

Name of Course/ Subject INSTRUMENTS AND MICROBIAL TECHNIQUES
